

REMARKS

Claims 1-31 are pending in this application. By this Amendment, the specification is amended to overcome the Notice of Allowance's objections to the drawings and further amended for clarity. A replacement drawing sheet is attached replacing Figs. 2 and 3. Fig. 2 is amended to have reference numeral 32 in the top right read "33." The specification is amended to reference the amended drawing. No new matter is added by the amendments.

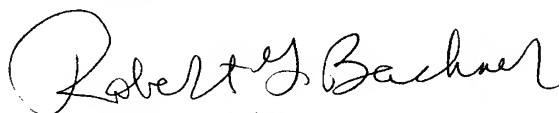

The Notice of Allowance objects to the drawings based on: (1) reference character "32" being used to designate more than one feature; (2) reference character "38" being used to designate more than one feature; and (3) reference character "60" not being mentioned in the description. The above amendments render objections (1) and (2) moot. The objection with respect to (3) is respectfully traversed.

Applicants respectfully submit that reference character "60" is mentioned in the specification. Specifically, reference character "60" is mentioned in Applicants' specification, for example, at page 36, line 21. Accordingly, reconsideration and withdrawal of the objection is respectfully requested.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,

James A. Oliff
